Testimony of Caroline Cadirao
PSM Manager, Executive Office on Aging
Attached Agency to the Department of Health

Hearing Date: March 21, 2019
9:00 am

Room Number: 229

1 **EOA’s Position:** The Executive Office on Aging (EOA), an attached agency to the Department
2 of Health, supports SCR0097 / SR 0075. Alzheimer’s disease is the sixth leading cause of death
3 in the United States and it affects about 27,000 residents in Hawaii, a number that will increase
4 by more than 40% by the year 2025. While there is no cure for Alzheimer’s disease and other
5 forms of dementia, increased public awareness and an early and accurate diagnosis of
6 Alzheimer’s disease and other forms of dementia may reduce the costs of care for persons living
7 with Alzheimer’s disease and other forms of dementia.

8 **Fiscal Implications:** None.

9 **Recommendation:** We strongly support advancing this measure.
